

Camposol: what changes because you are in Murcia, not Alicante

The administrative language is the same. What changes is the town hall, the region, and who collects your local taxes.

1 · The papers to gather first

Get everything together before you start. Almost every step in this guide stops dead for one missing document, and starting again costs more than waiting a day.

- The IBI bill, to see which body issues it: in Murcia it is not the same as in Alicante province.
- The cadastral reference of your plot, which in Camposol also identifies the sector, and that matters for planning.
- The deed, and the nota simple if you have it: on large urbanisations the registry description often does not match reality.
- The statutes and minutes of your residents' body, if your sector has one.
- The Mazarrón padrón certificate, if you live here most of the year.

2 · The order to do things in

- 1 Place yourself administratively: Camposol belongs to the municipality of Mazarrón, in the Región de Murcia. It is not the Comunidad Valenciana, and that changes rules, counters and deadlines.
- 2 Check who collects your IBI and refuse, and set the direct debit with that body, not the one you know from Alicante.
- 3 If you plan to let by the week, the tourist registry that applies is the Región de Murcia's, through ITREM.
- 4 If you live here most of the year, get on the Mazarrón padrón: the law requires registration in the municipality of habitual residence, and the doctor and the school hang off it.
- 5 Write down which sector of the urbanisation is yours. Planning and service answers differ from one sector to the next.

3 · The mistakes we see again and again

- Applying what you read about Torrevieja or the Vega Baja. It is a different region, and on tourism, housing and health the same rules do not apply.
- Registering in another municipality for convenience. The padrón belongs to where you habitually live, not to what is handiest.
- Assuming what worked for a neighbour works for you. In Camposol the sector changes the answer more often than you would think.

- Ignoring your sector's residents' body. Its decisions affect services you use daily.
- Counting on an urgent visit in person. Camposol is more than an hour's drive from the Vega Baja, and no amount of goodwill fixes that.

4 · Where you can check it yourself

Official pages, checked on 22/09/2026. The administration changes its screens without warning: if something does not match, the official source wins, not this guide.

If you would rather we did it

The same price	as in the Vega Baja for everything done by screen
+ €90	when physical presence is needed, grouped into the monthly run

What can be delivered on screen is delivered exactly as in the Vega Baja; anything physical waits for the monthly run, and the journey is stated and charged, not hidden in the price. Murcia is not Valencia: when your case needs a gestoría there, we say so.
